PROGRAMS FOR SCSC

PROGRAM 1

Canvas painting + Painted keychain design

Students will be learning about Leonardo Da Vinci's venture of designing flying apparatuses and dream of flight. Students will learn landscape painting and design an imaginative flying machine / object in the painting. The program is accompanied by a mini painted keychain as a smaller craft related element.

PROGRAM 2

MUSIC BOX

Students will be learning about Leonardo Da Vinci's venture of designing music box and how music boxes work.

Students will draw unique designs and paint on a music box. They will create an animal of their choice using air-drying clay and decorate it with gems and acrylic paint.

PROGRAM 3

Plate painting design & emoji clay model

Students will be designing a galaxy and solar system painting on a circular plastic plate with acrylic paint. They will learn the names of planets and the colours of them. Students will be taught basic painting techniques and colour wheel theory.

PROGRAM 4

Wooden Slide landscape painting

Students will design a mini landscape and paint their work onto a wooden slide using acrylic paint. They will decorate with sand and rock slices to add texture to their work.

PROGRAM 5

Wooden Box design

Students will design and paint original ideas/themes onto a wooden cube box that they will then assemble at the end.
